

## Games

LOCKER is an iPhone application that lets you send and receive encoded messages that cannot be read by anybody else. When you receive a message encoded with LOCKER it will look like random numbers and letters; but once you use the LOCKER app to decode it, the real text message will appear.

Buy Locker at the [Apple app store](#).

WORD FLOW is a fast paced, fun word-game in which the player slides rows and lines of letters in order to create as many words as possible in a limited amount of time. It's cool. Trust us. Have we

## Studio

3V GAMES is a new game studio founded by 3 veterans of the mobile gaming industry. The 3 Vs (Grandpa Vinni, Uncle Viddi and aunt Vicci) spent the last couple of years making mobile phone games that make people smile. You would smile too if you saw them. Pinky swear.

We formed the studio to create iphone exclusive games that use the lovely little device in new and innovative ways. WORD FLOW is our first game. There will be others.

## Contact

Please contact us with any questions or ideas you might have. Or you know, stuff you saw on TV. Please. We get awfully lonely.
